CLIENT JOB APPROVAL FORM

DISCLAIMER: Email proofs are for production approval only and are a general representation of color tone. They cannot be used as a color matching system. All monitors and printers have different calibrations and color accuracy cannot be achieved without a Pantone color or a match print. Please be advised that our printers do not print spot colors. Therefore, Pantone callouts are used only as reference and may not match exactly.

Please review the images carefully and either approve for production, or flag as requiring replacement.
